Re: U.S.-U.S.S.R. Program of Cooperation in Chemical Catalysis  
Extension of Stay for U.S.S.R. Research Fellow, Vladislav A. SHVETS

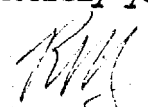

Dear Dr. Korneyev:

I should like to confirm Professor M. Boudart's request of March 18, 1975, for one month extension of stay in the United States for the U.S.S.R. research fellow, Dr. Vladislav A. Shvets until June 26, 1975.

As stated in Professor Boudart's request, the additional one month stay will allow Dr. Shvets to attend the Annual US-USSR Symposium, Chemical Catalysis Program, at Princeton, N. J. and to visit Professor W. K. Hall at the University of Wisconsin without curtailing his research activities at Stanford.

As soon as we receive your affirmative response, we shall proceed to make the arrangements necessary on this side for this extension.

Sincerely yours,

  
Richard L. Kenyon  
Program Administrator
